

## 5 CONCLUSION

Based on the data reviewed, the foundation soils are not susceptible to mass movements or excessive settlement. Therefore, this Site meets the location restriction requirement of 40CFR Part 257.64.

### ENGINEER'S CERTIFICATION

"I hereby certify that I have reviewed the Location Restrictions for the Lockwood Ash Landfill owned and operated by Lockwood Hills LLC and requirements in federal regulation 40CFR Part 257 Subpart D - Standards for the Disposal of Coal Combustion Residuals (CCR) in Landfills and Surface Impoundments published April 17, 2015 and amended on March 15, 2018. The CCR unit meets the requirements specified for landfills in 40CFR 257.64 – Demonstration that recognized and generally accepted good engineering practices have been incorporated into the design of the landfill to ensure the integrity of the structural components of the landfill will not be disrupted."

I am a duly licensed professional engineer in the State of New York.
