

4 CONCLUSION

Based on the evaluation presented, the selected statistical approach and methods utilized at the Lockwood Ash Disposal Site are appropriate for analyzing the groundwater monitoring data. Therefore, this site complies with the groundwater analysis requirements of 40CFR Part 257.93.

ENGINEER'S CERTIFICATION

"I hereby certify that I have reviewed the protocol for selection of statistical methods for the Lockwood Ash Landfill owned and operated by Lockwood Hills LLC and requirements in federal regulation 40CFR Part 257 Subpart D - Standards for the Disposal of Coal Combustion Residuals (CCR) in Landfills and Surface Impoundments published April 17, 2015 and amended on March 15, 2018. The statistical methods selected are appropriate for evaluating the groundwater monitoring data for the CCR management area and meet the specified requirements for existing landfills in 40CFR 257.93."

I am a duly licensed professional engineer in the State of New York.
